

A Donaldson Company

A WORLD LEADER IN FUME EXTRACTION TECHNOLOGY

AD Oracle iQ

The premier choice and best in class system with unique features in a compact unit.

The 'best in class' high-performance AD Oracle has now been further enhanced with the introduction of BOFA's new iQ Operating System, combining a range of unique features into one compact unit.

The Intelligent Operating System (iQ) performs at two distinct levels. Operators benefit from the ease of operation and clarity of real-time information, the system also provides a cache of analytical data, enabling users to download performance and operating parameters for evaluation purposes.

The iQ system takes performance and safety parameters to a new level and helps keep maintenance downtime and ownership costs to a minimum.

More information about the Intelligent Operating System (iQ).

Auto sensing voltage (100-230v) - for global use

Remote diagnostics via USB Standard

Interfacing Optional

Optional filter medias Optional VOC gas sensor (Volatile Organic Compound) Optional On-board compressor Optional

Technical specification

- 1. iQ display
- 5. Door hinge
- 2. On / off switch6. Hose inlet connection -75mm
- 3. Power cable
- 7. Exhaust outlet
- 4. Signal / interface cable
- 8. Motor cooling inlet

9. Door latch

Chemical filter

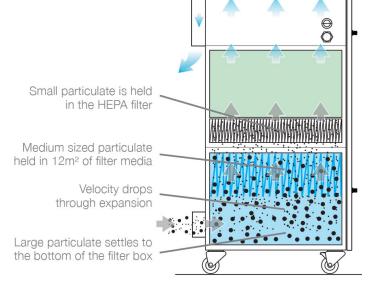

HEPA filter

Contaminated air

Technical data				
	EU	US		
Dimensions (HxWxD)	975 x 440 x 515 mm	38.39 x 17.32 x 20.28"		
Cabinet construction	Brushed stainless steel / powder coated mild steel	Brushed stainless steel / powder coated mild steel		
Airflow / pressure	380m³/hr / 96mbar	223cfm / 96mbar		
Electrical data	100-230v Single-phase 1~ 50/60Hz Full load current: 12.5 amps / 1.1kw	100-230v Single-phase 1~ 50/60Hz Full load current: 12.5 amps / 1.1kw		
Noise level	< 60dBA (at typical operating speed)	< 60dBA (at typical operating speed)		
Weight	65kg	143lbs		
Approvals	UKCA and CE	cUL, UL*		

DeepPleat DUO pre-filter specifications			
Surface media area	12m² approx (129.12 ft²)		
Filter media	Borosilicate		
Filter media construction	Pleated with glue bead spacers		
Filter housing	Zintec mild steel		
Filter efficiency	F8, 95% @ 0.9 microns		
Inlet size	75mm (0.24ft)		
Dropout chamber size	16.2 litres		
Filter media pleat size	200mm (0.65ft)		

Combined filter specifications			
HEPA filter media	Borosilicate		
HEPA media construction	Maxi pleat construction with glue bead spacers		
Filter efficiency	99.997% @ 0.3 microns		
Treated activated carbon	15kgs (33 lbs)		
Filter housing	Zintec mild steel

Datasheet correct at time of publishing.

Where applicable, the carbon used in BOFA units is capable of removing a wide range of VOCs, however it is the responsibility of the user to ensure the carbon is suitable for their application. For specific applications, please contact us for details.

Important Notice: Many factors beyond the control of BOFA can affect the use and performance of BOFA products in a particular application, including the conditions under which the product is used. Since these factors are uniquely within the user's knowledge and control, it is essential the user evaluate the products to determine whether the product is fit for the particular purpose and suitable for the user's application. All products, product specifications, availability and data are subject to change without notice, and may vary by region or country.
